passionate about quality

kitchens designed around you

Proudly serving the Bay, Lakes, and Dales, Butler Interiors designs quality kitchens that are built to last. As a family-run business with over 15 years' experience, we have a reputation for incredible customer service, quality products, and excellent craftsmanship.

In this brochure, we take you through who we are, how we create the perfect kitchen solution designed around you, and some of the fantastic quality suppliers and brands we work with.

renowned for supplying inspiring & quality designs

we work together

Though well known within the local area, many clients from further afield are often surprised to discover that we are a small, family business, with strong roots in the rural community and can compete so successfully in the world of kitchen design.

Our kitchens are made exclusively to suit each client's individual wants and needs. The ordering process has a lead time of 8 to 10 weeks, which ensures a quality product with greater versatility in overcoming specific design requirements or meeting the challenges of unusual installation needs.

Our small, close-knit team is directed by owner, Mark Butler. Mark's background as a Craftsman in cabinetry has provided him with a true understanding of how a kitchen works and how the elements come together, giving Butler Interiors an edge and the ability to present our clients with a functional and beautiful design.

When this expertise is combined with the elegance and high quality of Butler Interiors' chosen products; Schüller C and next125, a workspace that is stunning in both function and form is created.

None of our employees have sales targets, we work only in the best interest of the client. When specialist trades are required, we arrange help from reliable and trustworthy people – many of whom are local, and all of whom we use repeatedly.

Working closely with each client to create their dream kitchen and ultimately provide a perfect heart to their home is a truly rewarding process.

Kbsa approved retailer

As a local independent kitchen retailer and member of The Kitchen Bathroom Bedroom Specialists Association (Kbsa), Butler Interiors is dedicated to upholding the Association's high standards of design, supply, installation and customer service throughout the KBB industry. Local specialists are companies you can trust to design and install your next kitchen, bathroom, bedroom or home office.

Butler Interiors has been a Kbsa member since June 2020, meaning you can be confident that you are using a reputable company.

All Kbsa members follow an Approved Code of Conduct and are subject to strict monitoring to make sure you get the best professional service available.

We are a local specialist you can trust to design and install your next kitchen.

Every specialist Kbsa member throughout the UK can offer inspiration, advice and guidance together with extensive selections of quality kitchen cabinetry, work surfaces and appliances that can be integrated together to develop a unique, bespoke kitchen to suit you and your family's particular needs.

Mark Butler has joined the Kbsa board as the regional chair for the Midlands and North West, representing the independent kitchen retailers in this area and beyond.

The Kbsa is the only independent body to represent independent kitchen retailers in the UK.

installation

Installation by fully qualified local specialists, with everything arranged for you

satisfaction

The whole job completed on time and on budget, leaving you with the reassurance that the after sales team will take care of you when your project is complete

kitchens designed for individual lifestyles

how we approach our kitchens

We are acutely aware that choosing and buying a new kitchen can be daunting and seemingly complex. It is important to us that everyone is helped and advised on how to make the process as straightforward as possible.

The best place to start is by prioritising your wants and needs, as it is vital to ensure that your kitchen has all the important elements in place.

At Butler Interiors, we place very high priority on learning as much from our clients as they do from us. We design and install kitchens that are built to last a very long time.

We want you to be entirely happy with your kitchen, not just when it's new, but for many, many years to come.

STEP ONE

getting to know you

Warmly welcoming you to one of our showrooms, one of our team will listen to you and discuss your requirements. We go the extra mile to understand your wants and needs, compiling a design brief based on your thoughts and ideas.

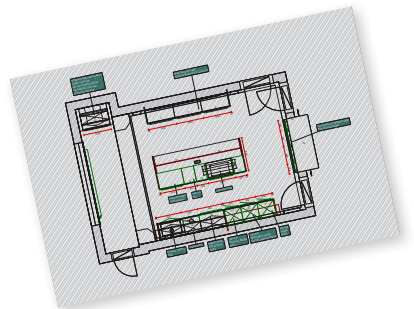

We will give you genuine advice that is straightforward and practical, and explore the available options together with you, because we care about creating the right kitchen.

Our aim is for you to have complete confidence in our ability to design, supply and install the kitchen of your dreams at a realistic price, spending as much time as necessary to achieve your vision.

STEP TWO
design

After getting to know you and completing a thorough site survey, your designer will create a scheme that is sympathetic to your home and the way you live and work, tailoring the design to your specific requirements. We use the latest design approaches and highest standard of products to create functional and beautiful spaces.

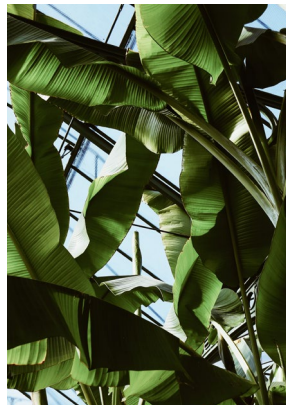

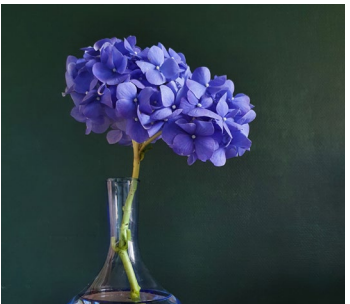

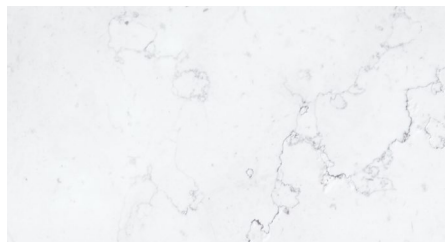

Throughout the process, in which we will provide our experience and expertise, we place great emphasis on working with integrity. All designs remain with Butler Interiors until you have agreed for the project to go ahead. Should you choose to take away your design, these visuals are subject to a nominal fee, which is fully refundable upon payment of a deposit and choosing to proceed with Butler Interiors.

CAD DESIGN

FINISHED KITCHEN

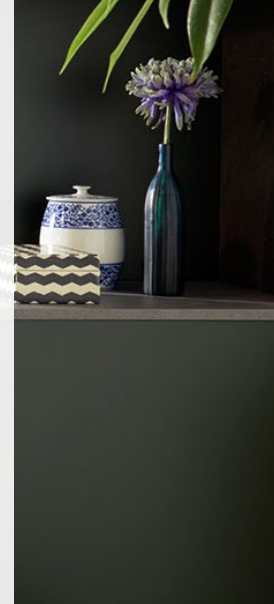

STEP THREE

construction

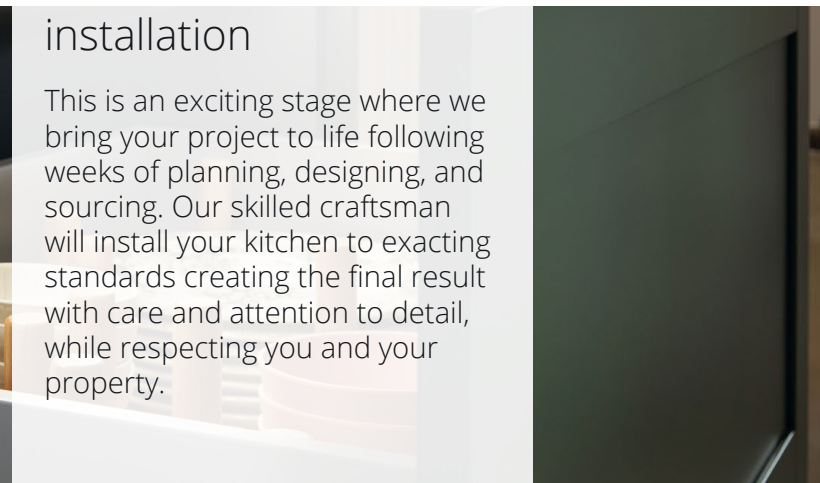

Once your design is finalised, your kitchen is built to order by our German partners, Schüller and next125, and delivered to us directly from Germany 6-8 weeks later. In the intervening period, we pull together all the other products needed to fulfil the design, ensuring a smooth transition between inception and completion.

STEP FOUR

installation

This is an exciting stage where we bring your project to life following weeks of planning, designing, and sourcing. Our skilled craftsman will install your kitchen to exacting standards creating the final result with care and attention to detail, while respecting you and your property.

STEP FIVE

finishing touches

Our contact with you does not necessarily end after installation. We are always on hand to walk you through your new environment and make sure you are completely happy. Your kitchen is a major investment so it's important to us that you know we care about getting it right.

exceptional kitchens

our portfolio

The kitchen is the heart of your home. Our talented designers work with you to produce a design that is sympathetic to your surroundings, the way you work, and how you live to create functional and beautiful spaces that are unique and personal to you.

beyond kitchens, enriched living

Living

At Butler Interiors, we go beyond kitchens. With the quality and craftsmanship of Schuller's living range, we can design and install furniture to create luxurious pantry and utility spaces, bespoke home offices with bags of storage, and stunning, functional modular wardrobes. We can also enrich your living spaces with sideboards, storage units, shelves and display cabinets that complement your kitchen and seamlessly blends to connect your home.

Over the next few pages, you'll see a snapshot of our Living range. If you'd like to see more, we'd love to show you and talk about how our living range can be incorporated into your home.

utility
pantry
home
office
wardrobe

utility

There are so many benefits to having a utility space in your home. We design entire rooms dedicated to cleaning, washing, and drying; freeing up more space in your kitchen, providing you with additional storage and creating a quieter, more orderly living space.

We also install modular units and pull-out cabinets that fit seamlessly into your kitchen to organise your home and keep household appliances and cleaning supplies out of sight.

pantry

A pantry can make a huge difference to your kitchen. Space-saving, organised and aesthetically pleasing, pantries provide a home for groceries, kitchen appliances and aids, and oversized dishes, bowls and pans. It can also be the perfect place to store your wine collection. Using open, adjustable shelving, practical pull-outs and tall units, we can design a pantry that meets your individual needs.

home

Open-plan living creates an informal, multifunctional space in your home for entertaining and spending time together as a family. The key is to create clear, well-defined zones and use materials and textures to connect the space. We offer sideboards, storage units, shelves, and display cabinets with clean, modern lines, for a timeless look that complements your kitchen.

office

Whether it's a place to work from home or somewhere to organise your everyday life, we know that maximising the available space is key to an organised and productive home office. We look at the location and size of your office area and consider everything from desk placement and integrated lighting, to how we use units and pull-outs to improve your storage.

wardrobe

Blending form and function, Schüller's sleek modular wardrobes offer maximum storage space. We can design any combination of open and closed cabinets with shelving, rails, and pull-outs, to house all your clothes, shoes, coats, and bags. With optional mirrored doors and LED lighting, we can also create the illusion of space and light in any room of your home.

kitchens for life, made in Germany

Schüller C showroom

Schüller strives to remain one step ahead in the world of kitchen design, creating new ranges that have a fresh approach but maintain the high quality and reliability customers have come to expect with their products.

IS SCHÜLLER C FOR ME?

The Schüller C range maintains excellent build quality combined with precise German kitchen engineering at a highly competitive price. With a wide variety of door and work surface choices, we are positive this range would suit most styles from modern to traditional and everything in between.

So, whether you're starting out, looking for a statement kitchen, or enjoying your prime years in life, our 'C' range is created with these needs in mind. Schüller is not your 'ordinary' kitchen manufacturer; it operates on the basis of strong morals for the environment and long-term sustainability as well as constant investment in innovation and product development.

the showroom

Offering an incredible range of contemporary and classic kitchen styles, Schüller designs furniture with maximum storage and functionality in mind. In today's modern world and the move towards open-plan living, it's crucial that your kitchen is tidy and organised, and stays that way.

From pantries and utility rooms to customised drawers and spice racks inside doors, our Schüller C range offers quality storage designs that you'll love for years to come.

You can see some amazing examples of Schüller's kitchen styles and furniture designs in our Lower Bentham showroom.

well shaped and attractively priced

next125 showroom

next125 incorporates form and function to create a space that appeals to the senses and hearts of people. As the award-winning international premium brand from Schüller, next125 combines craftsmanship, technology, design and architecture with state-of-the-art production.

IS NEXT125 RANGE FOR ME?

next125 is the premium range from Schüller. It incorporates many features and innovative design ideas normally unavailable in mainstream kitchens. Our next125 kitchens sit naturally in the same league as Siematic, Bulthaup and Poggenpohl kitchens, offering you the absolute best in quality, style and choice. If form, function and attention to detail are important to you, this range is the perfect choice. Browse through the next125 range and you will no doubt be excited by the flexibility and design opportunities available.

the showroom

As a luxury kitchen brand, next125 naturally cares as much about the inside of their kitchens as the outside. Using high-quality products and cutting-edge designs, you'll love every inch of these beautiful yet functional kitchens.

Create a truly individual kitchen unique to your needs, thanks to the next125 cubist design. With a clear style and carcass system, your new kitchen will be created in line with your exact requirements and storage specifications.

You'll enjoy spending time in the most important room in your home, for years to come!

You can see great examples of numerous kitchen styles and furniture designs from next125 in our Kirkby Lonsdale showroom.

kitchens for life, made in Germany

environmentally friendly on our way

From Germany to France, Spain, the UK, Benelux and other countries... Anyone, like Schüller, covering thousands of miles across Europe bears a responsibility. To meet this, Schüller has been investing in an increasingly eco-friendly and fuel-saving fleet of trucks for years, making the Euro 6 standard their contribution to cleaner air today and in the future.

Schüller has long used business practices that are consciously kind to the environment, including responsible manufacturing with investments in eco-friendly production facilities and a heating system fired on scrap wood. At the heart of Schüller's environmental footprint considerations are the materials used to make its kitchens, only working with wood and wood-based materials that meet the PEFC standard.

don't take our word for it

here's what our customers say

Take a look at what some of our previous customers have to say.

"Friendly relaxed but totally professional from start to finish. Fantastic job. Thank you so much!"

"Just want to say a massive thank you to Mark and his team, and to Amy for putting together our fantastic kitchen and diner, just fab, no hassle, excellent communication, cannot recommend them enough. The whole process was so easy, and the ideas that Mark and Amy put into the kitchen for the finishing touches, was just fab. I have an excellent kitchen now, thank you again."

"Absolutely love our new kitchen, excellent quality & service from Butler Interiors. We'd put off this project for so long thinking it would end in divorce!! Mark and his team made the whole process so simple & stress free. Having been to other companies, we found Butler Interiors produced the best designs, better quality kitchens and gave us honest suggestions of what would & wouldn't work for us. The electrician, plumber & kitchen fitter all worked well together ensuring the whole job ran smoothly, nothing was too much trouble for anyone involved."

"Excellent in every respect. Totally worth it. The team were friendly, welcoming and hospitable on every visit to the showroom and made the meetings enjoyable and exciting. Their patience with our indecision and constant questions made us feel valued and comfortable. As for layout and functions, our designer was respectful of our budget, requirements and ideas while also coming up with alternatives and solutions. Having the same team design AND supply our kitchen was the best decision ever as everything fits together beautifully and just 'makes sense'! We are in love with the quality, finish and design of our kitchen and are so pleased we chose Butler Interiors."

"Everyone at Butler Interiors have been an absolute pleasure to deal with from start to finish. As the kitchen would sit in an 'open plan' space, we really didn't want it to 'scream' kitchen, but that it would complement the whole dining/entertaining/living area and that's exactly what we got. Their ideas and suggestions were so helpful in helping us realise our 'perfect kitchen'. The quality is fantastic and the workmanship in fitting it too! It really is one of the highlights of our new house, receiving lots of positive comments from visitors (especially the Dekton worktop on the kitchen island - what a showstopper!) and we couldn't be more pleased. Thank you!"
